

Funding Idaho's Transportation Future

Idaho's state and local transportation agencies need an additional \$240 million each year to meet increasing transportation demands.

Without a significant revenue increase in the next three years, Idaho will not have enough funds to:

- **Improve highway safety**
- **Match federal highway funds**
- **Adequately patch potholes and plow snow**

For more information visit itd.idaho.gov. Click on *Idaho's Transportation Funding Conference* to learn more about the transportation challenge, our funding options and provide the Governor with your ideas and concerns about Idaho's transportation future.
